Dudley Isaac Lucas

// Fullstack Web Developer

Fullstack Web Developer with 8+ years of experience building modern, high-performance web applications. Spent three years at Rotterdam-based digital agency DotControl, developing scalable frontend solutions, improving performance and accessibility, and translating high-fidelity designs into production-ready applications. Contributed to projects for clients including National Geographic, DPG Media, Priva, APG, Yeaz, and SourceUp. Currently working as a freelance developer and founder of Blue Frame Digital, helping businesses build modern websites and digital solutions.

// experience

Freelancer Fullstack Developer

2024 — now

[Blue Frame Digital · Curaçao](#)

Design and development of websites, web applications, and e-commerce solutions for SMEs, including UI development, branding, SEO, and ongoing technical support.

Assistant Manager

2025

[Solar Gard N.V.](#)

Managed the complete sales process for custom shade solutions, from qualified leads generated through digital marketing to on-site consultations, technical drawings, quotations, and project delivery. Contributed to large commercial projects, including the design of sail shades and awnings for LXRY Mall in Brakkeput, Curaçao. Also operated heavy equipment for foundation excavation and site preparation when required.

Frontend Web Developer

2021 — 2024

[DotControl · Rotterdam / Caribbean](#)

Developed modern web applications using React, Next.js, Vue, Svelte, and TypeScript. Integrated Umbraco and Hygraph CMS solutions while delivering projects for National Geographic, DPG Media, Priva, APG, Yeaz, and SourceUp.

Social Media Manager

2019 — 2021

[Freelance](#)

Managed digital marketing campaigns for local businesses, producing graphic and video content while managing Meta Ads, Google Analytics, and Meta Pixel integrations.

Freelance 3D Drafter & Digital Processes

2017 — now

[Solar Gard N.V.](#)

Managed sales, technical drawings, quotations, and project delivery for custom shade structures, contributing to commercial projects including LXRY Mall in Curaçao.

Earlier — Construction & Marketing

2008 — 2017

[Ballast Nedam · Hero Media](#)

Studied Bouwkunde at the University of Curacao (UOC), And worked in construction as a carpenter, CAD drafter, and site foreman on large-scale projects including Hospital Nobo Otrobanda. Also supported marketing campaigns and graphic design projects at Hero Media.
